Education

Pimpri Chinchwad College of Engineering, Pune *2023 – 2027*
Bachelor of Computer Engineering

Mahatma Phule Junior College, Pune *2021 – 2023*
Higher Secondary Education (HSC)

Experience

Design Team Member — CESA ACM PCCOE *Sept 2024 – Present*

- Created over 100+ posters, banners, and social media creatives for college tech events.
- Collaborated with marketing and logistics teams for brand-aligned digital communication.
- Supported event branding and digital visual strategy for ACM chapter outreach.

Projects

Crop Recommendation Engine — ML Project *github.com/...*

- Developed a machine learning model that recommends crops based on NPK, pH, temperature, humidity, and rainfall.
- Used Random Forest and Decision Tree classifiers via Scikit-learn with over 92% accuracy.
- Performed data preprocessing, visualization (Seaborn), and evaluation to optimize for real-world agriculture.
- Designed for smart farming with practical applicability and improved yield prediction.

Full-Stack Finance Tracker — Software Development Project *github.com/...*

- Created a responsive personal finance manager using HTML, CSS, JavaScript, and Flask.
- Implemented user authentication, category-based tracking, and real-time expense visualizations.
- Applied data structures for transaction processing and used Chart.js for analytics.
- Focused on UI/UX, modular code, and real-world budget management use cases.

Hand-Controlled Snake Game using Computer Vision *github.com/...*

- Developed a gesture-controlled version of the classic Snake game using Python and OpenCV.
- Used MediaPipe for real-time hand detection and direction control through gestures.
- Added difficulty progression, score display, and a custom game-over interface.
- Demonstrated computer vision application, gesture tracking, and game logic handling.

Certifications

- Mastering Data Structures & Algorithms using C/C++
- Introduction to SQL
- Future-Proofing India: Homegrown AI and Digital Sovereignty
- Registration Copyright – Crop Recommendation ML Project

Technologies

Languages: HTML, CSS, JavaScript, C++, Python (ML), SQL, MongoDB
Tools: GitHub, VS Code, Canva, Figma

Extracurricular Activities

- Volunteer at Smart India Hackathon — technical and coordination support.
- Event Volunteer - Tech Summit: managed registrations and digital setup.
- Event Volunteer - Spectrum: Handled registrations of participants
